Nikesh Khichadiya

New Westminster, BC | +1 236-333-6560 | nikeshkhichadiya@gmail.com

Objective

Dedicated Full-Stack Developer adept at building scalable web applications using JavaScript, HTML, CSS, and diverse frameworks. Experienced in database management, API integration, and deploying robust solutions. Seeking a full-stack development position to leverage expertise in delivering high-quality, user-centric products while staying adaptable to evolving technologies.

Professional Experience

Sun Micro Solution – India
Full-stack Developer | Aug 2021 to Nov 2022

- Customized website themes and plugins to meet client specifications, providing tailored solutions.
- Integrated payment gateways, shipping methods, and optimized website performance to enhance e-commerce functionalities.
- Provided technical support, resolving website functionality and performance issues promptly, and boosted server performance through strategic integrations.
- Designed databases, developed REST APIs using Node.js and Express, and optimized them for efficient query execution and minimal resource usage, ensuring seamless web application functionality.

Logictrix Infotech – India
Front-end Developer | July 2020 to Aug 2021

- Developed and managed web applications with React and Angular, ensuring seamless functionality and responsive design.
- Translated wireframes into responsive code using HTML, CSS, JavaScript, and SCSS to enhance the user experience.
- Collaborated cross-functionally with back-end developers and UX/UI designers to craft intuitive and responsive web applications, conducting code reviews and executing unit tests for efficient problem resolution.
- Enhanced website performance by optimizing scripts and libraries, executing cross-browser testing to ensure responsiveness across various devices and browsers.

Satva Infotech – India
Front-end Developer and Designer Intern | January 2020 - July 2020

- Translated design mockups into visually appealing and intuitive web pages using HTML, CSS, and JavaScript, ensuring responsive design and cross-browser compatibility.

- Assisted in user research, usability testing, and created interactive prototypes for client presentations.
- Collaborated with cross-disciplinary team members to ensure seamless integration of design elements and functionalities, fostering effective communication and collaboration.

Education

Gujarat Technological University - Gujarat, India
B.E in. Information Technology | 2016 to 2020

New York Institute of Technology - Vancouver, Canada
M.S. in Cybersecurity | 2023 to Present.

Technical Skills

- **Frontend Development**: Proficient in **HTML5**, **CSS3**, **JavaScript (ES6+)**, and **Typescript**, along with libraries/frameworks such as **JQuery**, **React.js**, **Vue.js**, and **Angular**. Skilled in creating responsive designs for seamless user experiences.
- **Backend Development**: Experience with **Node.js** and **Express** for server-side scripting, coupled with database management using **MySQL**, **MongoDB**, and **Firebase**. Proficient in **RESTful API** development and integrating payment gateways.
- **Database Management**: Proficiency in **SQL** and **NoSQL** databases, with a strong emphasis on **database design** and **optimization** for efficient data storage and retrieval.
- **DevOps & Tools**: Adept in version control using **Git**, implementing **CI/CD** pipelines, and leveraging **AWS** for cloud services and deployment.
- **Additional Skills**: Strong problem-solving and debugging abilities. Proficient in Agile methodologies with excellent communication and teamwork skills. Committed to continuous learning and skill enhancement.
